# BULK CONTAINER

IBC Bulk Containers, short for Intermediate Bulk Containers, are versatile storage and transportation solutions widely used in various industries, including the plastic manufacturing sector. These containers offer a convenient and efficient way to handle, store, and transport bulk liquids, powders, and granular materials.

## FEATURES

- New 3-ribbed top profile enhances weld contacts.
- Improved dynamic stack performance with AVB and aligned structure.
- Neat plastic drip pan prevents rust.
- Easy pallet truck access with composite pallet.
- Eco-friendly plastic pallet with separate steel reinforcement.
- Robust corners for stability.
- Ground conductivity and large weld area for safety.
- Minimal bulging and higher clinch performance.
- Press-fit sleeve for durability.
- Safety guard and spacious dog-house area for convenience.

# XL RING DRUMS

---

XL Ring Drums offer a robust and efficient solution for your storage needs. Crafted from high-quality plastic, these drums are designed to withstand rigorous handling and provide long-lasting performance. Whether you need to store liquids, powders, or solid materials, our XL Ring Drums are up to the task.

## FEATURES

- Complete emptying – No residue and wastage
- Extended XL-Ring for easier handling
- Improved sealing arrangements – 100% leakproof
- Widest range
- Internationally accepted designs
- Optimum utilization of shipping containers
- Varied options for cost-effectiveness
- UN approved

# OPEN TOP DRUMS PLASTIC

---

Open Top Drums, also known as open-head drums, are versatile containers designed for the safe storage and transportation of various materials, liquids, and solids. Featuring a removable top lid, these drums provide easy access for filling, emptying, and cleaning, making them ideal for a wide range of industrial, commercial, and residential applications.

## FEATURES

World-standard Open Top Drum designs

Simple closing/opening mechanism with snap-fit clamping ring

Excellent drop impact and stacking strength

Leakproof

Odourless and non-toxic, best for food products

Right sizes for optimum export container utilization

Conforms to UNO/IMDG Codes

# STEEL DRUM

---

Our steel drums are engineered with utmost precision and attention to detail, ensuring superior performance and reliability in every application. Whether you require drums for transporting hazardous materials, storing chemicals, or shipping bulk goods, we have the perfect solution to meet your requirements.

## KEY FEATURES & CUSTOMISATIONS

Triple-seam construction and flattened welding seam

216L brimful/200L nominal (55USG) capacity.

Material thickness options: 0.7mm to 1.2mm

Customisation choices: corrugated or plain body, inner surface options (plain steel or lacquer coatings), etc.

Colour and decoration options: screen printing, thermal labelling, sleeves, etc.

# MEDIUM PACKAGING

---

A comprehensive solution designed to facilitate the process of packaging and shipping products for businesses of varying scales. It encompasses a range of services and materials aimed at optimizing the packaging experience, ensuring efficiency, cost-effectiveness, and sustainability.

## FEATURES

International design – widely accepted

Zero leakage – sophisticated screw cap with integrated sealing saucer/cup inserts

100% drainable

Pilfer evident sealing arrangement

Re-engineered packs for cost savings

Stackable with or without pallets

Optimum space utilization – side handles could be tucked-in

Venting/degasification caps available

Designed for complete safety and maximum usage of shipping container

Large printing area for aesthetic marking

Long life, high resale value

# PLASTIC PAILS & CONTAINERS

---

Versatile plastic pails and containers for storing and transporting liquids, powders, and more across multiple industries. Built durable, reliable, and convenient.

## FEATURES

Tightfitting lid, leakproof sealing

Excellent stacking strength

Tamper evident locking

Nestable

Gurgle-free, controlled flow dispensing spout

Available in attractive shapes

Varied range of sizes

Customized multicolour printing

Corrosion-free, rust free & no contamination

Different colour options

High resale value

Metal Spout and Plastic Spout

Sticker, Heat Transfer Labelling (HTL) and In Mould Labelling (IML) are available
